WAIVER

I know that running is a potentially hazardous activity. I should not enter and run unless I am physically fit, medically able and properly trained. I agree to abide by any decision of a race official relative to my ability to safely complete the run. I hereby certify I am in good health, and I have trained to run the distance of the race of which I am entering. I assume all risks associated to running in this event, all risks being known and appreciated by me. Having read this waiver and knowing these facts and in considering your accepting my entry into this running event, I, for myself and anyone entitled to act on my behalf waive and release Making Precious Strides, our race timer, their officials, directors, agents, employees and volunteers, all sponsors, their representatives and successors, from all claims or liabilities of any kind arising out of my participation in this event even though that liability may arise out of negligence or carelessness on the part of the persons or entities named in this waiver. I grant permission to all the foregoing to use my photographs, motion pictures, recordings, videos, or any other recording of this event for legitimate purposes. I understand that bicycles, skateboards, rollerskates or inline skates are not allowed in this event and I will abide by this rule.

Why we started

FOUNDERS' LETTER

Dear Friends,

In the summer of 2005, our son Zachary was diagnosed with a rare, life-threatening genetic disease known as Hunter Syndrome (MPS II) for which there is no cure. We are looking for your help in changing that. We founded Making Precious Strides, Inc. to create awareness and raise money to help find a cure for Hunter Syndrome.

Hunter Syndrome (Mucopolysaccharidosis II or MPS II) is an inherited disorder in which an enzyme, iduronate-2-sulfatase (I2S), is deficient. I2S is involved in the breakdown of complex carbohydrates called mucopolysaccharides. Without sufficient I2S in the body, partially broken-down mucopolysaccharides accumulate in various organs and tissues of the body leading to potentially life-threatening complications. This is a permanent medical condition.

Please help us find a cure for this devastating disease. Until recently, there was relatively little research into this rare condition. Progress will continue to be slow unless we gain the support of individuals like you who recognize the precious gift of promise and hope that lives within each child with Hunter Syndrome.

In 2006, the event's inaugural year, over four hundred runners and walkers participated in Zach's Run raising more than \$35,000 in net proceeds. You can help by donating your time and/or money in any amount— your contribution matters. All donations and sponsor monies will be directed toward national research initiatives and local educational awareness programs.

Sincerely,

Chris & Cheryl Dearth
Founders
Making Precious Strides, Inc.

What it is

EVENT DETAILS

The event will be held on Sunday, September 30, rain or shine, with registration beginning at 7:30 A.M. at the Oscar McClinton Park in Atlantic City, New Jersey.

The event will consist of a 5K (3.1-mile) run and 1-mile fun walk open to all ages. The 5K race will feature several age group categories including men's and women's categories of 14-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, and 70+. Trophies and medals will be awarded for 1st, 2nd and 3rd place in each category. Awards will also be given to the overall top three runners in the men's and women's division. The overall youngest finisher of the race will be recognized with a special award.

Participants may register online prior to the event via the Zach's Run Web site or by filling out and returning the form in this brochure. Registration fees are \$20 prior to the event and \$25 the day of the event. Children under 13 are free.

ABOUT US

Making Precious Strides, Inc. is a 501(c)(3) non profit organization founded in 2006 and is located in Atlantic County, New Jersey. Making Precious Strides, Inc. is dedicated to helping those affected by Hunter Syndrome (MPS II). The group's primary goal is to raise funds for medical research as well as generate greater awareness of the disease.

Why it matters

MAKE A DIFFERENCE

Hunter Syndrome (Mucopolysaccharidosis II) is a life-threatening, genetic disease that affects the body's ability to break down mucopolysaccharides in joints and soft tissue leading to life-long complications. Although the disease is uncommon, consider these startling facts:

FAST FACTS:

- At least 1 out of 162,000 children worldwide are affected by Hunter Syndrome
- A child affected by Hunter Syndrome may live into their 60's if their diagnosis is mild or, if they have severe Hunters, they may only reach the age of 15. However, regardless of their severity, their life will be altered dramatically.
- MPS II occurs in boys, and girls may be carriers of the gene for MPS II. Although rare, MPS II has been diagnosed in girls.
- There is an estimate in the United States that 1 in 25,000 births will result in some form of MPS.

For more information on
Hunter Syndrome or MPS Type II, visit:

www.Elaprased.com

If you know someone with Hunter Syndrome or any form of MPS or would like to get involved as a volunteer in our organization, please contact (609) 513-4029 or e-mail to Info@ZachsRun.org.
